Counsel and Support for Today's Caregiver

Our Service To You

The program we offer with Frontline allows you to send a personalized copy of this unique educational newsletter to specific members of the caregiving community you wish to reach. With this program we collect from you a list of individuals you wish to receive the newsletter and input them to our database. Then each quarter we publish the newsletter and the people on your mailing list receive a personally addressed copy compliments of your organization.

Professional writers, Professional product

Frontline is first and foremost an educational tool. Therefore, we have brought together two leading experts on issues affecting the caregiver, Alan D. Wolfelt, Ph.D. and Dr. Earl A. Grollman. In each newsletter these two authorities strive to help front line caregivers understand what is natural, what can be expected and, most importantly, what they can do better to serve families at the time of death.

In funeral services today we must communicate with our communities. Frontline is doing just that. It is not only an education piece but also a great communication vehicle between your firm and a very important group of people in your community.

~ Alan D. Wolfelt, Ph.D.

I am proud to be a contributor to this resource. My hope and belief is that the contents will be helpful to caregivers, who are very much on the front line of helping people to help others. Caregivers are always appreciative of funeral homes who reach out to them in support of collaborative helping efforts.

~ Dr. Earl A. Grollman
