Frontline

Frontline is first and foremost an educational tool. Therefore, we have brought together two leading experts on issues affecting the caregiver, Dr. Alan D. Wolfelt, Ph.D. and Dr. Bill Webster. In each newsletter these two authorities strive to help front line caregivers understand what is natural, what can be expected and, most importantly, what they can do better to serve families at the time of death.

RATES & DEADLINES

Frontline rates are based on a minimum one year service agreement.

We Can Put Together a List For You!

For a one-time fee starting at \$100, we will create a list of contacts for you. Simply tell us the area you want covered and we will compile a list of caregivers in that region. This list can also be modified by you to best suit your needs.

These prices include maintaining the database for the recipients of the newsletter from your funeral home, printing and maintaining an individual imprint and message from your funeral home, inserting the newsletter into an individually addressed envelope, insertion of an introductory letter and response form provided by your funeral home, mailing and postage.
